DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 13, 2005 has been entered.

Claims 11-13, 15 and 16 are pending and under examination in the instant application.

This application is in condition for allowance except for the following formal matters:

The substitute specification filed July 24, 2003 (and refilled September 25, 2003) does not appear to be an actual substitute specification, as the specification is identical to the original specification. Indeed, there does not appear to be any change made to the original specification, except for the inclusion of a truncated Sequence listing (i.e., pages 43-53 of the submitted specification). Applicant is required to supply a substitute specification placing the application into proper idiomatic English. Applicant should also indicate that the current sequence listing (pages 43-53 as submitted on July 24, 2003) should be cancelled in favor of the complete sequence listing (i.e., the listing filed March 26, 2001).

A substitute specification in proper idiomatic English and in compliance with 37 CFR 1.52(a) and (b) is required. The substitute specification filed must be accompanied by a statement that it contains no new matter.

Art Unit: 1636

It is also noted that Figure 2, panels A-B are not indicated in the instant specification.

Prosecution on the merits is closed in accordance with the practice under *Ex parte* Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
